

REMARKS

Specification

The Amendments to the Specification present no new matter. "A rewording of a passage where the same meaning remains intact is permissible." In re Anderson, 471 F.2d 1237, 176 USPQ 331 (CCPA 1973). The Amendments merely correct formalities, such as providing the proper reference to FIGS. 54A and 54B, throughout the specification and do not change the meaning of the description.

Drawings

No new matter is being added by the additional drawing figures which are being presented. FIGS. 54A and 54B merely present the originally filed FIG. 54 in a format which Applicant respectfully submits meets formal drawing requirements. Support for the additional drawing figures is found throughout the specification, as originally filed. Therefore, it is believed that the requirements have been met. If this is not the case, the Applicant respectfully requests that the Examiner state with specificity the deficiencies which need to be addressed.

CONCLUSION

In the event that issues arise in the application that may readily be resolved via telephone, the Examiner is kindly invited to contact the undersigned Attorney at (402) 496-0300 to facilitate prosecution of the application.

Respectfully submitted,

Delta International Machinery Corp.,

Dated: July 28, 2004
